"Hear me, O Lord, cause me to hear thy loving-kindness in the morning; for in thee do I trust: cause me to know the way wherein I should walk: for I lift up my soul unto thee." These words of the Psalmist constitute the Golden Text in the Lesson-Sermon on "Soul" on Sunday in all Churches of Christ, Scientist.

The Lesson-Sermon includes other passages from the Psalms: "LORD, thou hast been our dwelling place in all generations... Let thy work appear, unto thy servants, and thy glory unto their children. And let the beauty of the LORD our God be upon us; and these words of Isaiah: 'I will greatly rejoice in the LORD, my soul shall be joyful in my God; for he hath clothed me with the garments of salvation, he hath covered me with the robe of righteousness, as a bridegroom decketh himself with ornaments, and as a bride adorneth herself with her jewels.'

Among the selections from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, is the statement: "The recipe for beauty is to have less illusion and more Soul, to retreat from the belief of pain or pleasure in the body into the unchanging calm and glorious freedom of spiritual harmony."

Porter, pastor of the First Christian church, will speak on "Limiting—God." The service begins at 7:30 o'clock and the public is cordially invited to attend.

Protested

Three anti-Japanese organizations, including the International Friends of China, caused a demonstration as the Japanese merchant marine training ship, Taisei Maru, above, docked at Portland, Ore., its only American port of call. The wind-jammer made the trip from Yokohama in 45 days without using its auxiliary motor, under command of Captain N. Ono. Police guarded the vessel.

WALTERIA GROUP REQUESTS SIX CIVIC IMPROVEMENTS

The Walteria Improvement association is living up to its name. Six improvement requests from that body were considered by the city council Tuesday night. Two were approved and one was said to be in the process of improvement.

Requested were: surfacing of

Walteria alleys, water meters placed too high above ground, street signs, correction of one street name because the artery now bears three titles in about as many blocks, additional street lights and increased seating capacity of the proposed new Walteria recreation building.

The council voted to expend \$124 for new street signs and asked Leonard Young, acting city engineer, to confer with Walterians about the new name for the old state highway which is now titled Redondo-Wilmington boulevard for one block, Ellis street for another block, New-ton street for the third block and then reverts back to Redondo-Wilmington boulevard.

A street light is to be placed at 240th and Ward street. It was reported that the owner of the water meters, Charles Quandt, is now lowering the boxes. No change can be made in the design of the proposed recreation building now because it has already been submitted as a PWA project at San Francisco. The other requests were held over for future investigation.

State Rally at Church Tonight

When the different states assemble for the gathering tonight at the Methodist church it will be a toss-up as to which will have the highest attendance.

A parade in which each group (or it may be a single representative) will carry the name of their native state will move into the church auditorium at 7:45 p. m. Seating facilities have been rearranged to take care of several hundred. The program committee has found a ready response from several state groups to provide a "stunt" number of a few minutes which will be characteristic of the state of their birth. Community singing and special musical attractions will add to the enjoyment of the evening.

A good variety of foods will be available in what is called a "Jitney Service supper." The prices for each dish will be moderate and all friends are invited in this fellowship event.

Townsend Club Activities

Mrs. Lura Davis

Modified Form of County Manager Plan Under Test

Test of a modified form of manager government will begin in Los Angeles county September 10, when Wayne R. Allen, now county purchasing agent, also takes office as chief administrative officer under terms of an ordinance adopted unanimously by the board of supervisors yesterday.

The county administrator (salary \$3,400 a year) will have much of the responsibility of a full-fledged "county manager" without having the authority usually given such an official. Allen's duties will be to "supervise" all county departments except those of the three elective officers, the district attorney, sheriff and assessor—as agent of the board of supervisors.
